Abstract: The following aspects are widely publicized in this work: The purpose and tasks, directions, history of development of the system of physical culture of the Republic of Uzbekistan in the society, as well as the features of development of the system of physical culture in the Republic of Uzbekistan in the former Soviet Union and the years of independence, reforms and their positive effects are widely publicized.

Keywords: Physical culture, system, general concept, law, decree, independence, development.

Popularization of physical education and sports in our country is defined as one of the important directions of social policy. Because physical culture and sport strengthen the health of the population, raise the young generation to be healthy and well-rounded, and determine a healthy way of life in the society. attention to physical education and sports at the level of state policy, especially the First President of the Republic of Uzbekistan I.A. Karimov's June 12, 2015 "Measures to further improve the system of retraining and professional development of managers and pedagogues of higher education institutions" PF-4732, which aims to improve the content of retraining and professional development processes based on modern requirements and to regularly increase the professional competence of pedagogic staff of higher education institutions, and these decrees The government's decision on phased implementation raises the issue of a completely new approach to children's sports, the creation of schools for the training of sports reserves in the education of talented young people on the basis of science-based technologies. Physical education occupies one of the main places in the all-round, mental, moral and physical development of the young generation. In order to further develop physical education and mass port in Uzbekistan, strengthen its material and technical base, train and educate a new generation of athletes, and increase the international prestige of our country's sports, the Cabinet of Ministers of the Republic of Uzbekistan and the President of the Republic Sh.M. Mirziyoev The fact that attention is being paid, appropriate decisions, decrees and laws are being developed and put into practice is the basis for the development of the physical culture system of Uzbekistan.

Adoption of the Decisions "On further strengthening mass sports events" and other conceptual documents related to this field, their gradual implementation and the Constitution of Uzbekistan "Law on Education", "Training of personnel" special emphasis on physical education and sports in the national program is an expression of our opinion mentioned above. In recent years, Uzbek sports have been glorifying the fame of our country in front of the world community with its high results, thousands of sports complexes that meet international standards are being built, the most prestigious international sports in different regions of our country the fact that competitions are held is a practical result of these documents.

However, not missing out on high results is directly related to the training of qualified, competitive athletes, and the cultivation of young talented reserves. Due to independence, physical education and sports, like all areas of development of our country, are developing within the priority directions of state policy.

President of the Republic of Uzbekistan Sh. Mirziyoev, in his decision on measures for the further development of physical education and mass sports on June 3, 2017, promoted the importance of mass sports in the life of people and families in all regions of our country, and that it is the basis of physical and spiritual health. - promoting, protecting young people entering life with high hopes from harmful habits, creating the necessary conditions for them to realize their abilities and talents, selecting talented athletes from among them, and improving the targeted training system had defined the tasks.

Conclusion: In conclusion, we can say the following:

1. The system of physical culture of Uzbekistan serves to educate people not only physically, but also spiritually, to prepare young people for social work and defense of the Motherland.
2. As a result of the reforms carried out by our state in the field of physical education and sports during the years of independence, physical education in our country.
